

A Seamless combination of both form and function, this 32" Glass kiosk will bring visual impact to any situation. Successful in applications ranging from customer orientation to e-learning, this popular design will give your customers the ability to independently find the information that they need through interactive touch screen systems.

This striking unit is ideal in situations where floor space is limited. Designed and manufactured in-house from toughened glass and stainless steel you can be confident that whatever the application, this kiosk is up to the challenges of a high-use public environment. Dicoll Kiosks are also designed to be wheelchair friendly in keeping with DDA guidelines.

The Point of Information 32" Glass Kiosk can be customised with a range of peripherals to ensure a best fit solution for your organisation.
