

Dicoll have created the Delta Kiosk for a market that requires a more rugged and secure kiosk whilst being able to host a multitude of peripherals including printers, card readers and biometric solutions.

The Delta kiosk is built in the UK at Dicoll's factory in Reading ensuring our high quality engineering and quality standards are retained.

The Delta Kiosk comes with an optional toughened glass touch screen and its deep body size allows for the inclusion of many additional peripherals creating a truly versatile and rugged kiosk solution.

With a relatively small foot print, the Delta kiosk is ideal in situations where floor space is limited and provides a unique Kiosk solution which can be adapted to suit many different environments and requirements.

Benefits:

- Adaptable kiosk solution
- Low cost
- Many peripheral options
- Customisable branding options
- Small footprint
- Toughened Touch Screen Option
- Secure locking

Applications:

- Multi-media presentations
- Product/service information
- e-learning

Should you require something completely bespoke, Dicoll also offer a full solution design service.
