

A seamless combination of both form and function, this Kiosk will bring visual impact to any situation. Successful in applications ranging from customer orientation to e-learning, this popular design will give your customers the ability to independently find the information that they need through interactive touchscreen systems.

With a footprint of under 0.25 meters squared, this striking unit is ideal in situations where floor space is limited. Designed and manufactured in-house from toughened glass and stainless steel you can be confident that whatever the application, this Kiosk is up to the challenges of a high-use public environment. Dicoll Kiosks are also designed to be wheelchair friendly in keeping with DDA guidelines.

The Point of Information Kiosk can be customised with a range of peripherals to ensure a best-fit solution for your organisation. Should you require something completely bespoke, Dicoll also offer a full solution design service.

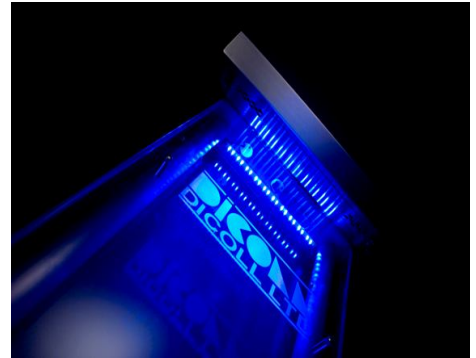

Benefits:

- Improve accessibility
- Modernise your operating environment
- Improve the customer service experience
