

The Dicoll Wall Mount Kiosk touch screen enclosure is manufactured to the highest quality. The Wall Mount Kiosk is manufactured from powder coated mild steel and extruded aluminium in a modular design using the latest technology and manufacturing techniques.

The Wall Mount Kiosk can be customised with a range of peripherals to ensure a best-fit solution for your organisation.

The Wall Mount kiosk has a sleek and timeless design and is practical for all those jobs a typical wall kiosk is designed for. It can be built either as a retail point of sales or alternatively as a station to dispense vouchers, printouts take money or scan coupons.

The Dicoll Wall Mount Kiosk comes with a 17" LCD, resistive touch screen and a small form factor PC using WindowsXPPro.

By choosing the Dicoll Wall Mount Kiosk you are investing in a well proportioned and affordable interactive kiosk terminal with an aesthetically shaped enclosure that is reliable, robust and requires limited space.
